

About Us

Dr. Corvin

A chiropractor for over 12 years, realized a major common concern among his patients. Since they were constantly in pain and spasming, they had trouble responding to treatment. A high priority of his has always been to help his patients get out of pain as quick as possible to help them respond to their treatment.

Dr. Corvin, also a competitive high school golf and football player, always relied on different analgesic crèmes to relieve his pain and soreness. A key to success as an athlete is being able to compete at 100% all the time without letting pain and soreness slow you down.

As Dr. Corvin looked for solutions for his patients, he could not find anything that worked fast enough or penetrated deep enough to provide the results he was looking for. That is when he developed "Code Blue", a fast acting Analgesic crème with a unique blend of natural ingredients that provide a quick response and penetrate deep into those hard to reach muscle groups to help increase range of motion and give pain relief at the same time.

From the weekend warrior to those that just want to feel better, Code Blue is the answer. It will help you get back to your normal everyday activities!

Charlie Clour

Charlie has a very unique and diversified background in inventing, manufacturing and distribution. Charlie is a patented inventor and manufacturer in multiple areas including unique lotion products. Charlie has owned and operated various successful businesses since the early 1990's, including the nations' 2nd largest indoor tanning distribution company.

One of the biggest difficulties for small independent companies like Chiropractic clinics is the (business of running a business). Charlie has the unique experience in helping improve efficiencies in this area.

- One concept that has had a tremendous response is the idea of "Your Business on a Bottle".

What we have done is taken the fantastic analgesic that Dr. Corvin has designed and "wrapped" a marketing concept around it. We ask Chiropractors:

- Why should they spend their hard earned money promoting other peoples products, when they should (PROMOTE THEMSELVES!) Your Business on a Bottle allows you to sell a fantastic analgesic (Code Blue) AND promote your clinic!
